STRATON INDUSTRIES LAUNCHES NEW ENHANCED WEBSITE

Straton Industries announces the launch of its new enhanced mobile friendly website www.straton.com

STRATFORD, CT, July 23, 2015– Straton Industries’ new website provides an intuitive and mobile friendly interface for easy access to its extensive resources for customers looking for a precision custom parts manufacturer or certified FAA repair station. Simplified site navigation and enhanced search capability make it quick and easy for the visitor to find the appropriate product or application information to suit a wide range of manufacturing environments.

According to David Cremin, President/Owner, “The new enhancements will insure a superior and informative user experience. The new refined interface and mobile-compatibility will help guide our customers and potential new customers to the solutions best suited for their industry or need.”

Other website features include:

- Quick Quote form to request a fast response to a new project estimate.
- Industry specific information about Straton’s projects in the aerospace, military, medical, energy, automotive and electronics.
- Straton news and events, including a recently completed projects and employment opportunities.
- Portfolio section highlighting projects and capabilities with brief narratives about our approach.

About Straton Industries

Straton Industries is a privately held Connecticut company founded in 1961 and is a contract manufacturer of molds, tools, dies and stampings. We are ISO 9001:2008 certified, FAA Certified Repair Station and AS9100C. Our staff is comprised of dedicated and experienced industry veterans that are ready to execute your custom manufacturing needs and help even help design and engineer new projects. Our Engineers and Technicians have the knowledge and experience to make your project a success.

For more information our machining capabilities or FAA repair, contact Straton Industries at 203-375-4488 or visit our website www.straton.com.
